THE WEEKLY SUN.

B A L T I M O R E

PUBLISHED EVERY SATURDAY MORNING,

BY A. S. ABLE & CO.,

FROM THE "SUN IRON BUILDING,"

At the S. E. corner of Baltimore and South sts.

Terms Cash in Advance:

For One Copy for Six Months or less.....$1 00
For One Copy for One Year..... 1 50

THE WEEKLY SUN will renew its best efforts as a first-class News and Literary Journal. Every improvement of modern journalism—by which it is distinguished—will be maintained, and such attention be given to its several departments as will insure their continued interest, and whatever may be necessary to render them more complete will not be lost sight of.

Through no other medium can families and individuals in the towns and villages and rural districts of the country be so well supplied with proper literature, and a full knowledge of the world's whole news, from week to week.

MAKE UP CLUBS.

While the WEEKLY SUN is afforded at the low rate of $1 50 per annum to single subscribers, the CLUB rates are still lower, carrying the price down as low as *one dollar* per year where twenty-five copies or more are taken at one post office at a time, viz:

Club of Six Copies, One Year	$8 00
Club of Twelve Copies, One Year	15 00
Club of Fifteen Copies, One Year	18 00
Club of Twenty Copies, One Year	22 00
Club of Twenty-five Copies, One Year	25 00
Club of Thirty-five Copies, One Year	35 00

Parties, then, should get up CLUBS in their towns, villages and neighborhoods, and thus secure the advantage of these very low rates. Any postmaster or storekeeper in the county may easily accomplish this among his acquaintances, or any active person, male or female, do the same. The regular diffusion of the light and intelligence which such a journal affords will be a moral and social advantage in any neighborhood.

To those parties getting up clubs for the Weekly Sun, sent to one post office, we will mail hereafter to the address of any one sending us

A CLUB OF TWELVE SUBSCRIBERS

LORILLARD'S "EUREKA" SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB SMOKING TOBACCO is made of the choicest leaf grown; it is anti-nervous in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first-quality Meerschaum Pipes. Try it and convince yourselves it is all it claims to be, "THE FINEST OF ALL."

LORILLARD'S CENTURY CHEWING TOBACCO. This brand of Fine Cut chewing tobacco has no equal or superior any where. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS have now been in general use in the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.

HOW THE DOCTOR GOT A WIFE.

BY A RETIRED LAWYER.

Some years since professional engagements called me from the Atlantic States to California, my duties pertaining to a case of considerable importance. In the course of my business peregrinations I passed a week or two at Sacramento, then a town rapidly growing into note, but not so largely or densely populated as it is now. Shortly after my arrival there met at my hotel an old college classmate, whom I had not seen for several years, and whom I should scarcely recognize, so greatly was he changed in personal appearance. He had seen my name on the hotel register, and rembering it waited upon me and introduced himself.

I was heartily glad to see him in the faraway country, and we sat down to a pleasant chat together over the events of our lives, past and present.

I remembered that my college mate had not been overburdened with means in his earlier days; and though he was a man of superior talents, the competition in the business to which he devoted himself, was altogether too great to permit him to enjoy a fair beginning at home. He had therefore, relinquished his undertaking in the pretty town at the east, where he had hoped to "live and flourish," soon after graduating; and with a few hundred dollars only, I knew he had started "for San Francisco and a market," as he pleasantly termed his intended destination for California.

I now observed that he was expensively attired, wore costly jewels in his bosom, drove a handsome span before a fine carriage, and living in good style in a suite of the best apartments at the first hotel in Sacramento. And so I continued:

"You are practicing h re—eh, doctor?"

"Yes," he said. "And let me tell you how and why it is that I am doing so well as you seem to have discovered."

"Go on, doctor. Is it a romance?"

"No. It was the result of an accidental discovery, the merest trifle of circumstance which made my fortune, and singularly enough, too. It will interest you, however?"

"I have no doubt of it. Proceed."

"Well, I have fortunately solved a very simple but perplexing mystery that fell directly in my way, professionally. I arrived in San Francisco with less than two hundred dollars in my possession, four years ago; and I made up my mind in a very brief space of time subsequently that the vocation of a physician there was precious poor means by which to amass money. Few people get sick in this blessed climate, in the first place; and if they did, there was plenty of cuppers and blisterers already here who stood watching to bleed both the patients and their pockets to the last drop.—Still there was an occasional opportunity for practice. I applied myself with assiduity, but soon got tired of San Francisco, and came to this city, where I hoped for better success.

I published a staring card in the only paper then printed here, and took lodging at this same house, just then completed. But patients were scarce, or shy of the new comer. However, one day an old Spanish Mexican, who occupies an extensive ranch just out of the city, waited upon me, and informed me that his daughter was ill at his residence. "He had tried all physicians, far and near—Spanish French and American. None of them did any good. He had seen my 'card.' Would I enter his carriage and ride out to see her?"

I readily assented, of course. On arriving at Sen. Rabino's hacienda, I was agreeably surprised to find it a fine stone residence, ancient in style, but massive in extent, and the interor was elegantly furnished and decorated.

I had acquired a smattering of Spanish years previously; and having had occasion here to confer with the natives, I readily understood him, when Senor Rabino informed me that his only child, the daughter he spoke of, had latterly been quite ill, and had declined in health for a year; while more recently she had fainting fits, which alarmed both the young lady and her opulent father, who had sought in vain for medical aid, and who was ready to pay roundly for any services, could I relieve or restore her. And the old Spaniard implored me patiently to examine the case, and save his "darling Carlotta," if possible.

"And had you seen the young woman?"

"Not yet; no. I made general inquiries as to the health of the rest of the family, and found there was in this case no apparent hereditary difficulty. And finally I was shown into the young lady's private appartment. By Jove! my friend, she was beautiful. You shall see her by the way, anon. I will introduce you."

"Thank you," I said. "Then she still lives?"

"You shall see. Don't anticipate me," said the doctor, briskly.

"I say, immediately on entering her beautiful boudoir, I saw that she was a splendid creature, though she occupied an invalid's chair, and was pale and reduced in flesh. There was, however, an ivory clearness in her complexion, a ravishing fire in her rich dark eye, and a classic beauty in her features which, at sight, greatly interested me; and I said to myself, I will earnestly try to save this poor creature from premature death.

"And as I sat down beside her, really my heart beat audibly. I confess it. I took her small, delicately rounded wrist in my hand, and consulted her pulse with more than ordinary interest, and some trepidation, as she looked languidly but pleasantly in my face, and said, 'Doctor do you think *you* can aid me?'

We were alone. She propounded this question as if she would imitate in the expression that my predecessors had tried and failed. And while she thus smiled, I observed that she exhibited two brilliant rows of pearly teeth, that were by no means the least attractive feature in her beautiful and intelligent face. I found the young lady's pulse was fitfull and feverish, and I questioned her as to her symptoms. She informed me briefly that her trouble, whatever it was seemed to be a nervous affection. She frequently experienced spasmodic and acqute pains in the face and head, and would faint and fall like an epileptic. Then extreme dullness would succeed, physically and mentally; she was really discouraged, she said.

With my practice as a physician, I had long before united that of a dentist; and I knew well how sensitive and delicate were the nervous combination of the face, and especially those of the teeth. I asked the patient many questions, and finally interrogated her closely as to the apparent neuralgic affections she had so frequently experienced in her head and jaw. She had no reason to complain of her teeth, she said; they were perfectly sound.

I examined them, however, with professional care. Finally, taking from my coat pocket a small operating dental instrument, I scanned each tooth, and rapped it slightly as I passed along. As I did this, the youthful senora did not flinch, until I struck the molar beyond one of the eye teeth, when to my consternation and surprise, she suddenly sprang up, and with a sharp sigh, she fell forward senseless at my feet.

As you may well conceive, I was alarmed for an instant, but quickly raising her form upon the divan at the side of the room, I repeated the rap upon this tooth, which, like all the rest, was to all outward appearance, perfect, and I found, though respiration had temporarily ceased, the effect of this simple jar upon the tooth produced a result upon the patient like that of a galvanic shock almost—the girl starting violently and struggling in my hands with fearful spasms, at each repeated stroke against the jaw.

Assuming the responsibility of my profession and positions, therefore, and believing that the mystery of her illness was in some way connected with the facial nerves, I quickly resolved to try an experiment to relieve her, at least temporary. And taking the forceps from my dental pocket case, I applied them to what I deemed the offending tooth, and instantly removed it from the jaw while she lay apparently insensible upon the couch."

"And what was the result?" I asked.

"In a moment she came to conciousness, and placing her hand to her forehead, she enquired, "where am I? Ah, doctor, what have you done?"—And then missing one of her teeth, she said, "What have you done?" And I briefly replied that 'I thought I had solved the mystery of her illness.'

"Upon the side of this tooth, which was perfect, there adhered a bit of straw, or what seemed to be a diminutive sharp splinter of hard-grained wood, perhaps three-eights of an inch in length, and not larger than a cambric needle in circumference, which had been plainly forced up accidently, and to her unconsciously, months previously, through the gum, and which penetrated to the root of the tooth near the connection where it enter the jaw. And there it had remained to fret and chafe one of the most delicately sensitive points in the head, until further forbearance with it was too much for the sufferer's physical strength."

"Well, did this operation cure her?"

"Not instantly. But this trivial matter was the really mysterious cause of her pining illness, evidently, for in ten days after my first visit she was as calm as you and I are now, and very soon she entirely recovered, as her spirits revived."

"And old Rabino? What did he say to your treatment?"

"He was delighted, and frankly offered me anything I would ask for a remuneration. He sent me a score of doubloons at once, as an earnest of his good intentions, and blazoned my success abroad among his host of friends directly. I soon became famous; and my rooms were for a time besieged with invalids whose ills had been of short or long duration, and whom neither my skill nor that of those who had made attempts on these incurables, could ever relieve them of their manifold complaints. Still the consequence of all was, that I sprang at once into notoriety and a splendid remunerative practice; and I have now a very comfortable competency, as well as a prospective good business."

"I congratulate you, Doctor. But what became of the lady?"

"Oh, Senora Carlotta? I had almost forgotten to say that when I found she was rapidly improving, I ought to have discontinued my professional visits; but neither father nor daughter would listen to this. Not until the young lady had entirely recovered did I cease to visit the fine old ranch daily. And finally, my dear friend, when the fair Senora had resumed her health, I claimed the remuneration for my services."

"Of course you did. You earned it."

"And what do you think I finally demanded?"

"That I could not guess at—we professional gentlemen are usually so modest," I said; "and especially when successful."

"Well," he continued, "I arranged the affair first with Senora Carlotta.—And then I demanded *her hand* in marriage of old Rabino."

"You did?"

"I did. And I made her my wife, of course."

"Married!" I exclaimed. "Then you are no longer a bachelor?"

"No, my old chum. We have been married over a year."

And ten minutes afterward I was introduced to one of the prettiest women I ever set eyes on in my life.

"You are a lucky fellow, Doctor," I said to my friend at parting with him. "If I could turn *my* humble talents to similar good account, I really believe I would no longer lead the life of a bachelor myself."

"Well, my friend," he replied, "take the advice of one of the happiest men alive, and get married."

"Thank you, Doctor, I will think of it." And I left him one of the jolliest and most fortunate men in existence.

His fortune by his wife was ample, and his professional business continued the very best for years.

He is now reckoned among the "solid men" in California, and his lovely wife is one of the most accomplished and beautiful of the sex, while both are warmly beloved and respected by the large social circle who enjoy their society and confidence.

MILD WINTERS IN THE OLDEN TIME.—It is related in Smith's "History of New York," published in 1756, that in the year 1693 Gov. Fletcher, with 300 men, set sail from New York on the 14th of February, and arrived at Schenectady on the 17th. This was considered such extraordinary swift traveling, that the Indian allies gave the Governor the name of "Cayenguirago," or "Great Swift Arrow." Mr. Smith says in a note that the 14th of February was an early day for the Hudson to be open, but adds: "The climate now is so much altered that 300 recruits sailed from New York for Albany this year (1756), and last year a sloop went up the river a month earlier." From this it would seem that the present mild winter is by no means a novelty.

EXTRAORDINARY WEATHER ALL AROUND.—The report from the Pacific railroad for the 5th of January is that the track is clear through to San Francisco. No snow on the great plains, nor in the Black Hills, nor in the passes of the Rocky Mountains, nor in the lofty chain of the Sierra Nevada, to obstruct the trains, but a clear track from ocean to ocean. At the same time the record shows the Hudson river open from New York to Albany, and the same is reported of all the European rivers emptying into the North Sea and lower Baltic, which are usually fast locked in ice in mid-winter.—It is certainly an extraordinary winter so far over the face of the civilized world.

As history repeats itself, perhaps there is nothing remarkable in the deed of a Texan sharpshooter, who lately outdid William Tell. We read in the New Orleans papers that some months since a party of Texans were practising with six-shooters at a target when a wager was proposed that a piece of silver should be placed on a cork on the head of one of the number and the cork shot out, leaving the coin resting on the man's head. The wager was made, and at a distance of five paces the parties were placed in position, the target adjusted, and the feat performed without injury to the brave supporter of the target.

An urchin of six or seven years went into a barber shop in Racine, and ordered the barber to cut his hair as close as his shears could do it. He was asked if his mother ordered it in that way. "No," said he, "but school commences next week, and we've got a school-mam that pulls hair, and I'm bound to fix her this term, you bet.

A young man living in Lafayette, Ind., is humility personified. The other day he asked a young lady if he might "be allowed the privilege of going home with her," and was indignantly refused; whereupon he inquired very humbly if he might be "allowed to sit on the fence and see her go by."

A blushing damsel called at one of the agencies the other day to buy a sewing machine. "Do you want a feller?" inquired the modest clerk in attendance. The ingenious maid replied with some asperity: "No, sir!" I have one."

FARMERS COLUMN.

When to use Lime and Plaster.—A successive cultivator, contributes the following suggestions on this subject:

The value of lime or plaster as a manure, depends upon the component parts of the soil to which it is applied. All land has more or less sulphuric acid in it, caused by the decomposition of *iron pyrites.* The presence of this acid may generally be known by the appearance of the soil, and particularly of the stones. If there is any iron rust or oxide of iron in the soil, or in the stones, or on the top of the water that filtrates through the soil, or if the water is hard, it indicates the presence of sulphuric acid.

If land on which grass seed is sown is "slow to catch" or sod over, or catches in *patches,* it indicates the presence of sulphuric acid.

If the roots of clover and herd-grass in the spring stand two or three inches out of the ground, and in detatched parcels, with bare ground between, it is the work of sulphuric acid. On such land plaster is a poistive injury.

If clover and tame grasses die out, and are succeeded by wire grass, sorrel or sour dock, it is caused by sulphuric acid. Put on lime and keep off plaster.

The reason why plaster should not be used on land charged with sulphuric acid is, that plaster is composed of lime and sulphur, and applying that is adding more of that with which the land is already overcharged. On such land apply lime which unites with the sulphuric acid, and forms plaster.—The lime thus neutralizes the acid; and the acid thus neutralizes the lime, and forms a compound nutriment for vegetation.

The reason why the ground appears so hard where the earth is charged with sulphuric acid, is that the old stubble has been eaten up by the acid.

The sulphuric acid in plaster, applied to land not overcharged by that substances decomposes vegetation, and fits it for nourishing the living plants.—When there is an excess of the acid it eats up the vegetation, both dead and living. This is the reason why soils overcharged with acid are always deficient in vegetable matter. And soils free from it have an excess of vegetable matter in a decomposed state.

The presence of this acid is the cause of sorrel and sour dock and sour grass. The land is literally sour and Nature is trying to throw it from her stomach through these excrescences.

The rule then is, if your land has too much sulphuric acid, or is sour give it a good coat of lime, if destitute of acid, apply plaster.

Hints to Farmers.—In dressing your fields, cut your coat according to the cloth—that is, don't run in debt for fertilizers.

When your sheep are fleeced, don't let the wool-dealers pull the wool over your eyes as regards its value.

Never take to a bed in your house in the day-time, while there are plenty of beds in your garden that require attention.

The first investment of all farmers should be in plow-shares. Nothing pays a surer dividend, yet not always large; but it is certain.

When you feel like currying favors, go into your stable and curry your horses and other stock. That pays best.

Do not, as money-brokers do with stock, sell your stock off "short." It is better to have several tons left over till another season.

The time to shear sheep is, when you throw off your own evercoat for the season.

When a farmer hears a sermon on mending one's day, he should look to his lanes and bridges, and see if all i safe for loaded teams.

Gardens should always be put under picket-guard, or his fowls will come up to the scratch, if he does not.

The only kind of stakes that a farmer should hold are fence stakes.

After raising the best crops you can, the next best thing to raise is the mortgage on your farm. When this is "taken up," a farmer feels first-rate.

Never harrow the feelings of people by uncovering old evils; but harrow your fields as much as you please, and nobody will find fault.

Rainy days may be well spent in practicing dentistry on rakes and harrows.

If a farmer feels like travelling, let him plant hops, and he can then go from *pole* to *pole* without much expense.

The farmer who can't do without his lager beer, a few years finds another kind of *bier* necessary.

No farmers wife should crow over her chickens till they are grown up, as many a little brood has disappeared, one by one, the work of rats.

Yorkshire Biscuits.—Three pounds of flour, one gill of yeast, a quarter of a pound of butter, three eggs, milk enough to form a dough. Rub the butter and flour together. Beat the eggs and add them, then the yeast and milk to form a dough. Stand it away to rise, when light make it into biscuits, butter your tins, place the biscuits on them, let them rise again and bake them.

Fig Pudding.—Take a half pound of best figs, washed and chopped fine, two tea-cups of grated bread, half a cup of sweet cream, half a cup of white sugar, and one cup of new milk. Mix the bread and cream, add the figs, then the sugar, and, lastly, the milk. Pour the mixture into a mold, and boil four hours. Eat with a liquid sauce.

The Bedford Gazette.

Thursday Morning, February 10, 1870.

THE *Inquirer* is thrown into convulsions by the fact that two Democrats in Congress voted against the abolition of the franking privilege. It is the abuse of this privilege by the Radicals that has made it odious. Congressmen like John Covode have for years loaded down the mails with reports of smelling committees and whitewashing investigations, and some of them have even been known to send their boots home through the post office. Nothing of this kind happened when the Democrats were in a majority in Congress. The franking privilege, as it was used in the better days of the Republic, was a benefit to the people. It enabled them to communicate freely and fully with their representatives in Congress, and especially were the farmers profited by it in the distribution of seeds of improved cereals and other plants from the Agricultural Department. But the privilege has been abused, as we have said, and there is great need that the abuses which have made it unpopular, should be corrected. Judge Woodward and Col. Haldeman, the two Democrats who voted against the abolition of the privilege, and the half dozen Radicals who voted with them, did so because they desired it to stand in order that it might be reformed and restored to what it once was, a blessing, instead of what it now is, a curse to the people. Moderation is the best policy. The franking privilege properly restricted, would be useful to the public. If the Covodes and Cessnas and Kelleys and Schencks had never invaded Congress, there would be no occasion to-day for the abolition or reformation of this privilege.

IN the discussion of the naval appropriation bill in the House last week, the Hon. Samuel J. Randall illustrated Grant's love of retrenchment and reform by the following instance. When the present administration went into power there were employed in the navy yard of Philadelphia between eight and nine hundred men. Within one month the force in that navy yard was increased to twenty five hundred men. Mr. Randall declared that there was no public necessity for their employment —"the men were actually in each other's way." Yet the administration which obtained possession of power under the most solemn pledges of economy is now urging enormous appropriations for the perpetuation of such monstrous abuses as those to which Mr. Randall has called public attention.

THE Police Commissioners for Philadelphia, named in the bill which has just passed the legislature, are Peter A. B. Widener, W. J. Pollock, John S. Rittenhouse, George Truman, John M'Carthy and Mayor Fox, *ex officio*. While taking all power away from the mayor, it was considered in good radical taste to make him a member of the board. The majority of this board are tools of Wm. B. Mann, and are to be made the stoops on which he again climbs into power. They will lose no time in installing Mann's repeaters, ballot box stuffers and bullies in the places to be vacated by the present members of the police. Again Wm. B. Mann leads his forces to the front. There is a fine prospect for the people of Philadelphia. The rest of the world should and will avoid the city as if it were beset by a plague.

AFTER all the promises of retrenchment and reform made by the Grant administration—after all the sales of muskets, ironclads, and munitions of war—after the receipt of millions upon millions of dollars from internal revenue and customs—the national debt for the month of January shows a reduction of only $3,933,664; and it is probable that when Secretary Boutwell's figures have been thoroughly overhauled and the true state of affairs made known, the "reduction" will be found to have no real existence. In the meantime the taxes of the people have not been lightened in the slightest degree, and the burden of the debt is crushing out the life of the nation. Where is the boasted economy of our Radical rulers?

, WILL some one who is posted tell the country what the object is in keeping up "The Grand Army of the Republic?" We read of sessions, meetings, secret conclaves and most mysterious doings of this "Grand Army," and the reflecting classes, who properly hold wars and soldiering as political and moral nuisances, look with especial disfavor upon this sort of organization in times of peace. The country is sick of war, sick of the fruits of it, sick of the cost of it, sick of soldiering as a profession, and the sooner the "Grand Army of the Republic" ceases to meet and fight over its old battles, the sooner will the political wounds of the Nation heal up.—*Lancaster Intelligencer.*

THE New York *Herald* makes a sharp point in regard to the Southern States being required to ratify the fifteenth amendment as a condition of restoration to the Union. As they could not be trusted to come in and then ratify it, they ratified first and then came in. They were, therefore, not in the Union. Either, then, says the *Herald*, all the reconstruction laws of Congress are invalid, or these Southern ratifications of the fifteenth amendment are invalid. If the States were in the Union there was no need to admit them, and if they were not in the Union they could not participate in making laws for States that are in.

"Government pets" must be provided for, and as Satrap Canby can no longer tyranize over Virginia, a new "department" has been created for him, so that he may draw some $10,000 a year from the public treasury for doing nothing. General Sherman has accordingly issued an order abolishing the First Military District, and creating the Department of Virginia, with Gen. Canby as commander.—The new "department" comprises Virginia, North Carolina and Maryland, and forms part of the Military Division of the Atlantic, under the command of Gen. Meade.

"Let us have peace," and the taxpayers will foot the bills!

REVELS, the "Fifteenth Amendment" Senator from Mississippi, was a substitute broker during the war, and many a "loil colored brother" did he manipulate into the service. Now he represents Africanized Radicalism in the United States Senate. With all this we are sorry to see the Reverend Revels get into such company as that of Sumner, Yates and Chandler. Demoralization is certain.

THE President stated to the Mayor of Washington, the other day, that the year closing March 3 would show a greater reduction of taxes. For particulars, inquire of the Republican Congressman Dawes, who says that Grant's administration costs *forty-nine millions of dollars a year more than Johnson's.*

CONGRESSIONAL.

WASHINGTON, Feb. 1.

The currency question engrossed the attention of the Senate yesterday. Mr. Sherman's amendment to allow banks having excess of capital under the act, to go into States having less than their equal share of circulation, and establishing banking-houses therein, was adopted. An amendment, by Mr. Chandler, to increase the amount of circulation provided for in the bill to one hundred million, was rejected.—The understanding is that a vote will be had on the bill to-day at 4 o'clock P. M. Mr. Morton introduced a bill to provide for the admission of Mississippi. It imposes the same conditions as in the case of Virginia. Mr. Ramsey reported favorably the House bill to abolish the franking privilege. The same Senator also reported back from the Post-office Committee, with amendments, the bill to establish a postal telegraph system and to incorporate the Postal Telegraph Company. Mr. Cragin introduced a bill to abolish the office of Surveyor of Customs. In the House of Representatives two bills were introduced for the admission of Mississippi, and a bill by a Democratic member from Alabama, for the removal of all political disabilities.—A resolution favoring the payment of the bonds in greenbacks, offered by Mr. McNeely, of Illinois, was tabled by nearly eighty majority. Mr. Ingersoll offered a resolution directing the Banking Committee to report back his bill authorizing an additional issue of forty-four millions of legal tenders, but the House refused to entertain it. Bills were introduced to abolish the Department of Agriculture, to reduce the pay of members of Congress (by a Democratic member of course), and to grant belligerent rights to the republic of Cuba. On motion of Mr. Banks, the Cuban champion, the latter was referred to the Committee of Foreign Affairs. Mr. Cox, asked leave to offer a resolution instructing the Ways and Means Committee to report a clause repealing the unjust and unburdensome tariff on coal. The coal men rallied in force and voted the resolution down, 75 to 44, which is ominous for the poor man's free coal when the tariff comes under revision.

WASHINGTON, Feb. 2.

Finance was the feature in the Senate, and the new tariff amendments the feature in the House yesterday. In the upper chamber Mr. Sherman's bill was discussed at length, but the expected vote was not reached. Mr. Sumner made a speech, interpolating it, as usual, with extracts from private correspondence indorsing his views.—Two amendments by Mr. Morton; one to increase the additional circulation from forty-five to fifty-two millions of dollars, the other authorizing the withdrawal of thirteen millions of circulation from the States having an excess and its distribution among the States having less than their share, were adopted. The amendment offered by Mr. Sumner to issue two millions of additional currency was voted down. Various other amendments were proposed and rejected, and the final disposition of the bill was deferred until to-day.

Mr. Saulsbury presented a memorial praying for such legislation as will secure the government of the United States to the white race, which was referred to the Judiciary Committee.—Mr. Pomeroy introduced a bill to establish a prohibitory liquor law in the District of Columbia. If there was ever one needed anywhere it is where the present Congress is sitting. In the House of Representatives, Mr. Schenck, as chairman of the Committee on Ways and Means, reported the new bill to amend the tariff law. A discussion sprang up at once, during which several members of the committee, Democrats and Radicals, attacked the bill in front and flank. Mr. Cox inquired whether the bill was not "an aggravation of the present monopolizing, fraudulent, scoundrelly system of tariffs now existing," and Mr. Marshall, one of the committee, replied that it was. The bill was ordered to be printed and was made the special order for Tuesday, the 15th instant.—The House went into committee on the Appropriation bill, and several Democrats eulogized Mr. Dawes and assailed the administration for its extravagance and corruption. The Radicals, not relishing these denunciations arbitrarily choked off the debate and adjourned the committee.

WASHINGTON, Feb. 3.

Mr. Sherman's Currency bill was passed in the United States Senate yesterday by a vote of 39 to 23. Sumner and sixteen other Radicals voted against it. The Senate also discussed Mr. Howe's Neutrality bill. In the House of Representatives, Mr. Logan introduced a resolution requiring the Committee on Foreign Affairs to report on the feasibility of recognizing the belligerency of Cuba, which was adopted. This brings the matter to a head, if the committee does not dodge the responsibility by neglecting to report. The House, in committee, debated at length the Senate bill to appropriate $30,000 for the relief of the negroes of Washington. A sharp passage between Mr. Randall and Mr. Dawes took place, in which the latter was decidedly worsted. The bill was not disposed of when the House adjourned.

WASHINGTON, Feb. 4.

The United States Senate, in executive session yesterday, rejected, by a vote of ayes 24, nay-33, the nomination of Ebenezer R. Hoar as Associate Justice of the Supreme Court. The vote was a square one on the issue, and the President stands snubbed for insisting upon the confirmation of his unpopular candidate.

A bill to authorize the funding and consolidation of the national debt, to extend banking facilities, and to establish specie payments was introduced in the United States Senate yesterday, from the Finance Committee, by Mr. Sherman. It was ordered to be printed. Mr. Abbott, the North Carolina carpet-bagger, offered a resolution of inquiry into the constitutionality and expediency of establishing a national police force for the Southern States (in other words of continuing military rule). After a discussion of some length upon the matter of naval appropriations, the Senate laid aside the order so as to allow Matt Carpenter, of Wisconsin, to get off his long incubated Cuba sympathy speech. Mr. Carpenter advocated the repealing of the Neutrality law. Mr. Howard defended the policy of the administration, and ridiculed the pretentions of the Cubans to a responsible government. In the House of Representatives, Mr. Cullum, from the Territorial Committee, reported the bill to prohibit polygamy in the Territory of Utah. The bill to admit Mississippi to representation in Congress was reported by B. F. Butler, from the Reconstruction Committee. The features of the bill are precisely the same as in the act admitting Virginia. Mr. Beck offered a substitute to admit the State unconditionally, but it was voted down, 85 to 98, about one half of those voting in the affirmative being Radicals. The original bill was then passed. The remainder of the session was devoted to a debate upon the bill introduced by Mr. Dawes, from the Committee on Appropriations, to supply deficiencies for the navy. The bill asked for $8,000,000. In the course of the debate allusion was made to the packing of the navy-yards with superfluous laborers at election times, and to the alarming inefficiency of our naval vessels. Mr. Logan called the latter old tubs, Mr. Banks quoted Admiral Farragut as saying that wooden vessels were as good as iron ones. Cuba was dragged into the discussion, and Mr. Benjamin, in behalf of the administration, announced that it was not prepared at this time even to recommend the recognition of Cuban belligerency.—Finally, an amendment, cutting down the appropriation to $1,500,000, was agreed to, and the bill was passed.

WASHINGTON, Feb. 5.

The friends of the bill abolishing the franking privilege, which has already passed the House of Representatives, attempted to put it on its passage in the Senate yesterday; but, after a debate on its merits, in which considerable opposition to it being developed, it was obliged to give way to special order, and the Senate refused, by a vote of 34 to 22, to take it up again. This is supposed to indicate the strength of the friends and enemies of the measure, and, of course, to foreshadow its defeat. The Senate passed a bill authorizing the Secretary of the Treasury to withhold moneys due to any State which may be in default of payment of the interest on any part of its bonds held in trust by the United States. A part of the session was devoted to the consideration of means of coddling the District negroes. The bill to incorporate a Homœopathic Society, amended so as to prevent the exclusion of negroes, was passed. In the House, General Slocum read an advertisement from a New York paper, offering for sale a vacant cadetship in the United States Naval Academy, and a resolution was unanimously adopted authorizing the Committee on Military Affairs to inquire as to whether any member of the House has ever sold or offered to sell his influence in the manner indicated. In the course of the remarks which followed, Mr. Woodward stated a case where there had come to his knowledge the offer of a sale of a West Point cadetship for $2,500, and Mr. Scofield also had heard of a sale for $500, the culprit being a Pennsylvania Congressman. The House passed the Senate bill appropriating $30,000 to feed the idle negroes of the District of Columbia, and, exhausted by the effort, adjourned.—Buncombe to-day.

The Schœppe case has made its appearance in a new shape. A bill has passed the State Senate which allows writs of error in cases of murder and voluntary manslaughter, not only where such cases may hereafter be taken to the Supreme Court, but in cases now pending in that tribunal. The bill further proposes that the Supreme Court may not only review the law of the case, which is all that has hitherto been done by that tribunal on writs of error, but that the evidence may be considered and the court may determine whether there were sufficient facts in the testimony to authorize a verdict of murder in the first degree, and if the court should be of the opinion that the judgment was not justified by the evidence, it may reverse the decision of the court below and send back the case for a new trial.

The mysterious announcement comes from Vienna that the Archduchess Elizabeth, a member of the Imperial family of Austria has fled from her home and kindred, and embarked for America, by the way of Hamburg. Why Elizabeth should fly we are not informed by the enterprising telegrapher. She is a cousin of the Emperor, is 39 years of age, and has been married twice; first, to her cousin, Ferdinand of Modena, who died in 1849, and secondly to another cousin the Archduke Charles Ferdinand, who is general of cavalry and an old man. By her first husband she had a daughter, now living, the Archduchess Maria Theresa, who was married two years ago to a Bavarian prince, and has just had a child. The fugitive Elizabeth is therefore a grandmother at 39, and that calamity to a handsome, proud-spirited woman may have something to do with her self-exile to the wilds of America.

All doubt is removed of the fate of Mexico. The unfortunate country is doomed to another bloody civil war, and even the friends of Juarez admit that the catastrophe cannot be averted. Five States are now in open insurrection, and the central government is powerless. Very gloomy forebodings of the future fill the columns of the Vera Cruz papers. The next steamer at Havana will probably bring the news of the downfall of President Juarez and the reign of anarchy all over the land. In exchanging Maximilian for Juarez the Mexicans got back their republic, but not peace or good government.

A remarkable clerical scandal is reported in the Philadelphia papers. The delinquent is a Catholic priest, name unknown, and the victim of his wiles a Miss Louisa Dober, who has suddenly and mysteriously disappeared. Rev. Mr. Hartley, of the second Reformed Church, has received a letter from Miss Dober, in which she states that she is confined in the cell of a catholic church, and that she is to be sent to a nunnery in Milwaukee. The affair creates much excitement in religious circles in the Quaker City.

It is quite time to have news of a fresh murder of Dr. David Livingstone, and we have it. On this occasion he was roasted, the charge against him being that he was a wizard, and the perpetrators of the cruelty were the very negroes he has eulogized so frequently and loved so well. The reports of Dr. Livingstone's undoing have been so frequent that the public are disposed to give them little credence now, and in this case, the intelligence comes from a British naval officer stationed somewhere on the African coast.

TO CONSUMPTIVES.—The Advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, will please address REV EDWARD A. WILSON,

Williamsburg, Kings County, New York.

SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC and MANDRAKE PILLS will cure consumption, Liver Complaint, and Dyspepsia, if Taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up the tone to the stomach, the patient will begin to want food, it will digest easily and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A.M. to 3 P.M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

AYER'S HAIR VIGOR,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

THE ONLY RELIABLE CURE FOR DYSPEPSIA IN THE KNOWN WORLD.

Dr. Wishart's Great American Dyspepsia Pills and Pine Tree Tar Cordial are a positive and infallable cure for Dyspepsia in its most aggravated form, and no matter of how long standing. They penetrate the secret abode of this terrible disease, and exterminate to it, root and branch, forever.

They alleviate more agony and silent suffering than tongue can tell

They are noted for curing the most desperate and hopeless cases, when every known means fail to afford relief.

No form of Dyspepsia or Indigestion can resist their penetrating power,

DR. WISHART'S

PINE TREE TAR CORDIAL.

It is the vital principle of the Pine Tree obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are retained. It invigorates the digestive organs and restores the appetite. It strengthens the debilitated system. It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs. It dissolves the mucus or phlegm which stops the air passages of the lungs. Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing inflammation. It is the result of years of study and experiment, and it is offered to the afflicted with positive assurance of its power to cure the following diseases if the patient has not too long delayed a resort to the means of cure:

Consumption of the Lungs, Cough, Sore Throat and Breast, Bronchitis, Liver Complaint, Blind and Bleeding Piles, Asthma, Whooping Cough, Diptheria, &c.

A medical expert, holding honorable collegiate diplomas, devotes his entire time to the examination of patients at the office parlors. Associated with him are three consulting physicians of acknowledged eminence, whose services are given to the public free of charge.

TOO POOR TO TAKE A NEWSPAPER.—The poorest man to be met with, especially in these stirring times, is the man who is too poor to take a newspaper. We pity such a man, especially if he is a man of property. Who ever heard of a man too poor to smoke or chew tobacco, if addicted to either habit? And yet men who spend from fifteen to twenty-five cents a day for "the weed" are too poor to take a newspaper, in the intellectual enjoyment of which their families might participate. Really such men are poor. They are objects of pity.

ANOTHER LECTURE.—The fourth of a series of temperance lectures was delivered in the court house, on Monday evening last, by the Rev. R. F. Wilson. As usual the house was crowded to overflowing. The lecture was pronounced an able effort by all who were fortunate enough to hear it. Bedford must have popular lecturers, or the subject of temperance must be eliciting more than ordinary interest, for we never knew a series of public meetings in this place that drew such houses.

GROUND HOG DAY.—Last Wednesday the 2nd inst., was "ground hog day," and, as the day was bright and clear, that prophetic animal no doubt saw his shadow, if he emerged from his hiding place at all. According to the old notion we are to have cold wintry weather for six weeks from that time. Since the 2nd the weather has been as fair as was ever seen in this latitude in winter, but at the present writing—Tuesday morning—we have a three foot snow, and still falling The "ground hog sign" will not be a failure, after all, we think.

"Cleansing the Blood," upon which charlatans have harped so much, is not a mere catch-word and delusion.—The microscope shows that some diseases exist like parasitic growths upon the globules of the blood, and it is further known that some subtle substances destroy or expel them. These substances have been combined to make Ayer's Sarsaparilla, which does effect ually expel the disorders that breed and rankle in the blood to rot out as it were the machinery of life.—Mercer (Pa.) *Whig.*

"PUFFERS" AT PUBLIC SALES.—In Chester county, Judge Butler recently gave a decision settling the question of bidders or "puffers" at public sales. A suit was brought to recover $1,645 on a note given as the purchase money of real estate. A gentleman who had purchased property at the public sale and given his note for the money, learned afterwards that there were present at the time bidders or "puffers," and he refused to take the property. The Judge decided that if a party procure men to bid up property, and the person who buys is deceived thereby, he cannot be held to his bid, as it vitiates the sale and makes it void.

A PARTING WORD.—We have grown tired of printing duns in this shape. Our friends in arrears are proof against all such missiles. We have, therefore, concluded to try a different plan, of which due notice is hereby given. We are now sending to each delinquent subscriber a statement of his account, with the proposition that if it be paid by Feb. 19, 1870, a certain deduction will be made. If not paid by that time, *full rates will be charged, payment enforced by law, and the paper discontinued in all cases of more than one year's arrearage.* Upwards of *ten thousand dollars* of unpaid subscriptions and advertising have accumulated on our books during the last five years. This is a load we cannot carry any longer. Will our friends assist us in lightening it, or must we summon to our ai that vexatious and detestable instrumentality, *The Law?*

LITERARY.—the following practical and interesting questions were lately discussed by "The Independent Debating Society of Boyer's School," in an adjoining county:—

"*Resolved*: That a cross and cleanly woman is preferable to a dirty and good natured woman."

"*Resolved*: That a preacher eats more chickens than a fox."

Well, that will do. That "debating society" should be turned into a Sorosis at once. Fortune telling with "coffee grounds" should be practiced.—Chicken bone breaking, for luck, should be indulged in. Broomstick gymnastics, in company with a "dirty but good natured woman" should be exercised liberally. Lectures, *a la* Mrs. Caudle, should be delivered by 'a cross and cleanly' female, with strong minded proclivities. Anything to keep up the fun, boys.

COURT BUSINESS.—In examining the records of the Prothonotary's office, we find 405 cases on the Continuance Docket for February Term, 1870. This has kept the new Prothonotary busy at his post. But while that officer has been kept moving, the Sheriff has not been idle, for we find that 124 executions have been placed in his hands since he took charge of that office. This is the largest amount of business done in either office—with a few exceptions as to the Sheriff—for twenty six years, for at the August Term, 1843, the Continuance Docket reached 532, while the number of writs executed by Sheriff McVicker was 200. The amount of business done in the Prothonotary's office is a sure barometer of the financial atmosphere, and as monetary matters are exceedingly depressing and with no flattering indications of improvement for some time to come, we may reasonably look for more entries on the Dockets, more executions by the Sheriff, and more pecuniary distress generally. Surely the present is a sad commentary on the "good times" which were promised to the people on the advent to power of the present radical regime. We are afraid t ey will fail to see it in that light.

PUNISHMENT IN SCHOOLS.—Two deaths, one at Chicago and the oti er in New York State, have resulted lately from whippings in school, and suits have been instituted against teachers in various parts of the country for severely flogging children under their charge. It seems that the "spare the rod and spoil the child" doctrine, which originated a long time ago, is still pertinaciously adhered to in this enlightened age and country, notwithstanding it has been shown that children in schools, at least can be more advantageously managed by means of other than corporal punishment.—Whatever argument may be urged in favor of Solomon's doctrine, it should be practised, if practiced at all, by the parents of the offending juvenile. Few men or women are willing to have their children beaten by strangers, however they may delight in beating them themselves. It might be shown, we think, that flogging children at all has a brutalizing tendency and engenders in the youthful heart far more of evil passion than it expels. It is generally inflicted in anger, or from a revengeful feeling, and evil must beget evil. There may be instances in which corporal punishment is necessary and beneficial, but in most cases other punishments might be substituted with advantage to all concerned. There can be no question that excessive flogging is brutal, as well as brutalizing, and ought not to be tolerated even when administered by a parent: certainly not when done by a stranger.

Corporal punishment has long been entirely banished from the public schools of Philadelphia which are among the best and best governed in the world, and we see no reason why it should not be banished from the schools of all other cities and school districts. Human nature is about the same everywhere, and what answers so well in Philadelphia would answer equally well in other parts of the world. It is far better to stimulate than mortify the proper pride of a child, and better to win than to alienate its affections. If one be found perfectly incorrigible under proper treatment, it is not likely that it could be reformed by means of physical torture. The best way to dispose of such children is to banish them from the schools.

HYMENEAL.—Our friend 'Jenkins,' who was there, gives the following description of the wedding party at Bloody Run, last week. Hear him:

"Bloody Run was the scene, last evening, of one of the most brilliant weddings known to our community. The occasion was the marriage of D. S. Elliott, Esq., editor of the 'Bedford County Press,' to Miss Rebecca Harris, daughter of Josiah Harris, Esq., all of Bloody Run. The parties were married at the 'Barndollar' M. E. church, at 7 o'clock, P. M., by Rev. G. W. Van Fossen, assisted by Rev. Wm. M. Deatrick. The church was densely crowded long before the hour fixed for the ceremony, and at precisely 7 o'clock the bride and groom, attended by Miss Anna Barndollar, of Woodbury, bridesmaid, and Dr. F. M. Masters, of Bloody Run, groomsman, appeared before the altar. We could not do justice to the elegant appearance of the bridal party at the altar, and as we are too much of an old bachelor to venture into a description of dress, we will content ourselves by saying that every article of dress was of the most approved, costly and elegant style. After the ceremony the party returned to the residence of the bride's father, where they received the congratulations of some two hundred invited guests, and then repaired to the dining hall, where a supper, such only as a skillful caterer could prepare, was spread before us. Everything that the Eastern markets could afford was abundantly served, to which we did ample justice. When supper was disposed of, the party returned to the parlors, and were entertained with vocal and instrumental music; quite a number, however, preferred "tripping the light fantastic toe" and repaired to the spacious dancing hall, where the Bloody Run String Band was in attendance discoursing some of their finest music. We are informed that our terpsichorean friends lingered in the giddy maze until the 'wee sma' hours' warned them to desist; for ourselves we cannot say, as we do not dance. Refreshments were served at 12 o'clock, in the dining hall, and a more richly arranged table it has never been our pleasure to feast our eyes upon. We had almost forgot to say that the 'Harris Building' was brilliantly illuminated during the entire evening. Altogether, this was the most brilliant wedding party we have ever attended or known in our vicinity. Mr. and Mrs. Harris spared nothing to add to the comfort and enjoyment of their guests, and few indeed know so well how to entertain. Our genial friend Stewart, who has so gracefully slided into matrimony, will be missed from our bachelor list but he will accept our kindest wishes for his future happiness. JENKINS."

OIL NEWS—We are indebted to O. E. Shannon, Esq., for a copy of the East Brady *Independent*, from which we clip the following items which will interest many of our readers, and especially those of our citizens who have invested in the "Stump Islands" and other oil companies in that section:

The Parker Oil Field.—The "Island King" well commenced pumping 300 barrels salt water about 1st December. After bursting several seed bags, a light one was made finally, and she pumped a solid stream of salt water to for several days, when the oil began color the water. As the water diminished the oil increased. She is now pumping by actual measurement 150 barrels per day and certainly not more than one-third water,—so that she is yielding fully 100 barrels of oil per day, probably more.

The Engine house of the "Island Queen" burned down on Friday last. The high water having stopped the pumping, the well flowed through the casing in the night, and the throttle leaking let the oil under the grate bars and engine floor, when Mr. Dower undertook to kindle the fire in the morning after the water had subsided, the whole thing went up in a flash.—Fortunately Mr. D. was not injured, and the loss is small, as Messrs. Galey and Dower were just about to put up a new engine above ordinary freshets.—

The Island Queen is a 30 barrel well owned by John Galey and P. Dower.

The Island King is owned by Galey and Hartley.

The Stump Island Oil Co. are preparing to sink three wells on the upper Island, and two on the lower Island.

The Hartley well, No. 5 on the Hartley and Shannon tract, is yielding 50 barrels. This well is the first below the Emlen. The Miama on the Hartley tract No. 3 is being drilled through the third sand. She was tested when drilled only a few feet in the third sand, but yielding only about 8 barrels, Col. Woodward is now having her sunk deeper.

No. 1 and No. 4, on Hartley and Shannon tract, will soon be down, and No. 2 at the mouth of Hartley Run will soon commence drilling. Also two wells on Cottage Lot, belonging to Hartley and Shannon, will soon be under way. John Lambing lessee.

The Stump Island wells, at the mouth of the Clarion River, had stopped pumping for 24 hours in consequence of the flood, but flowed all the time. The cribbing on the Island is progressing and the wells will soon be out of reach of high water. The upper one of these wells is now the "King" well of the "Landing."

The above was "set up" last week, but was crowded out. We gather additional items this week from the Clarion *Democrat*, as follows:

The mild weather of the last ten days, has stimulated developments in this oil Eldorado materially. In fact, every available piece of ground, large enough for the erection of a derrick, on the river front, from above the fowler tract to bear creek, (nearly 4 miles,) is taken up and being operated.

The hill territory is also being rapidly developed, and bids fair to out-strip the River flats. The developments in and about Lawrenceburg, shows conclusively that it is equal to, if not more desirable than the River front.

There is a grand rush now for leases on the table lands of the Robison and Fox farms. The big well gotten on the bluff trerritory of the Robison farm, opposite the mouth of the Clarion, has caused a big excitement, and consequently a great scramble for leases on the farms above mentioned, and I have no doubt, but it will prove excellent territory. The well is said to be pumping 75bbls per day.

From Parker up to Foxton there is a continual line of derricks—wells producing, and wells going rapidly down. By spring there will be double the production there. Viewing Parker from the East side of the Allegheny, it really looks like business, and may justly claim to be king of Oildom. A new well was struck back of Parker yesterday, (I did not learn the exact locality), and is reported at 75 bbls. This will again increase the excitement on the hill. Leases are being taken up.

AYER'S SARSAPARILLA,
FOR PURIFYING THE BLOOD,

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

HORACE WATERS.

TESTIMONIALS.
The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*
We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*
The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*
Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*
MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur player in the city, as well as several celebrated pianists have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15.'69.

CONSUMPTION, Bronchitis, Asthma, and Catarrh cured by inhalation. Abbott's Inhaling Fluid is the only remedy known that operates on the lungs—dissolves the tubercles, which are thrown off, the cavities heal, and a cure is effected. Treatment by letter or in person can be had only of

1870 "THE WORLD." 1870

The ability of THE WORLD is beyond question—*Raleigh (N. C.) Sentinel*

We regard it the ablest Democratic newspaper in the nation—*St. Joseph (Mo.) Herald.*

The New York WORLD the ablest Democratic journal in the United States.—*Cincinnati Times.*

The leading Democratic journal in the country, and as able as it is eminent, the New York WORLD.—*Boston Traveler.*

The New York WORLD, the best edited paper on the continent, is wonderfully fertile in good things.—*Raleigh Sentinel.*

The New York WORLD, the ablest, most influential, and most widely circulated Democratic newspaper in the country.—*Syracuse Journal.*

THE NEW YORK WORLD.—The WORLD is now beyond question the best newspaper published in New York City.—*Courier, East Saginaw, Mich. Sept.*, 25, 1869.

We always read The WORLD with hearty admiration of its superior ability, often with warm appreciation of its eloquently uttered sentiments.—*Worcester Evening Gazette.*

Those who want a Democratic paper will find THE WORLD, on the whole, the smartest, most entertaining, and complete newspaper on that side of the house.—*Chronical, Penn Yan, N. Y.*

THE WEEKLY WORLD,
a large quarto sheet, printed throughout in large type and published every Wednesday morning, has now the largest circulation of any weekly newspaper in the United States, with possibly, a single exception. Among its prominent features are:
1. Its very full and accurate market reports, embracing the Live Stock markets of New York, Albany, Cambridge, and Philadelphia; and New York Country Produce Market, and General Produce Markets of the country; and full reports of the New York Money Market. Each of the reports are complied with great care, and contain the latest quotations that can be obtained up to the time of putting the paper to press.
2. Its Agricultural Department, which contains each week articles on practical and scientific farming that are of great value to American farmers. A special feature of this department is a weekly summary of the condition of the Hop Markets at home and abroad.
3. A very full report of the proceedings of the Farmers' Club of the American Institute is printed in each issue of the Weekly World, the day after the meeting of the Club. By this arrangement the report appears in the Weekly World one week in advance of its publication in any other weekly paper.
4. A portion of the Weekly World is reserved for family reading matter, including original and selected stories, poems, waifs of humor, and extracts from books and periodicals.—Particular attention will be given to this department during the year 1870.
5. A special feature of the Weekly World is a carefully complied summary of the news of each week. It is made so complete that no one who reads it can fail of being well posted on all the important news of the day.

THE SEMI-WEEKLY WORLD,
published Tuesday and Friday, is a large quarto sheet, containing all the news published in the Daily World, with the exception of such local reports as may be of no interest to non-residents of New York City. Its market reports are as full as those of the Daily edition, and it contain, besides interesting literary matter, on Friday of each week a full report of the Farmers' Club.

THE DAILY WORLD
contains *all the news* of the day that can be obtained by mail and telegraph from all parts of the world, and the thorough discussions of all topics of interest.

THE WORLD ALMANAC FOR 1870.
"THE WORLD ALMANAC" for 1870 will contain a vast quantity of political information of use to every voter, and of such a character as can be obtained in no other publication. In it will be printed full official returns of every election held in 1869; the vote of New York State by election districts, and Connecticut by towns; the names and dates of each candidate for each branch of the New York Legislature: list of members of the United States Senate and House of Representatives; obituary record and list of important events during the past year. As a compact political manual it will have no equal.

OUR NEW FAMILY SEWING MACHINE.
The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.
OUR NEW FAMILY MACHINE,
which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and
CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK
never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.
New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.
A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. Or communications may be addressed to

READ! READ!! READ!!!
MIDDLETON'S
WONDERFUL PAIN CURE.
A sure remedy for Rheumatism, Neuralgia, Lumbago, Growing Pains, Sprains, Bruises, Stiffnes, of the Joints and all similar diseases.
This wonderful remedy is composed entirely of vegetable ingredients. There are no injurious substances used in its manufacture.
For assurance of its excellent properties, read the following certificates:

BEDFORD, May 8, 1869.
I take great pleasure in giving my testimony to the value of "Middleton's Wonderful Pain Cure." I have been a martyr to Rheumatism For two months previous to Feb. 25th, last, I was suffering intensely with pain so severe, that during all that time I had not one night of comfortable sleep. I could not put my hands to my face, could not comb my own hair, nor feed myself; but after having the Pain Cure applied once, I found relief enough to give me comfortable sleep, and with its steady use, I continued to get better, and now at the end of ten weeks from its first application, I have comparatively free use of my hands, sleep well and can attend to business. It has done me more good than all other medicines I have ever used put together, and I cheerfully give this certificate of its value.
ELI M. FISHER.

BEDFORD, April 14, 1869.
Mr. W. W. Middleton,
This is to certify that I was taken with Rheumatism, in my right shoulder, on the evening of the 8th inst., so that I was unable to raise my hand to my face. I got some of your Pain Cure and applied it twice, and was entirely relieved. I would recommend to every one who suffers with Rheumatism to give it a trial and be cured.
Yours &c., A. F. MILLER.

BEDFORD, May 17, 1869.
Mr. Middleton,
DEAR SIR:—I have used several bottles of your medicine in my family, and find it to be all you claim for it. Yours, truly,
JOHN HAFER.

BEDFORD, May 13, 1869.
This is to certify that I have used "Middleton's Pain Cure," for Rheumatism, and was very much benefited by it. JOHN HARRIS.

BEDFORD, May 18, 1869
This is to certify that I have used Middleton's Liniment, for the Rheumatism which I had in my right shoulder so bad that I could not get my hand to my head without great pain, and after a few applications was entirely relieved.
L. F. DART.

BEDFORD, May 1, 1869.
Mr Middleton,
Dear Sir:—Mrs. Bowser was in much suffering for some four weeks with Rheumatism, and got some of your Pain Cure, and the first night I applied it it eased the pain; and after keeping on using it for two weeks, she was restored to health. I feel it to be my duty, as it is a pleasure, to write this recommendation for the benefit of others. JACOB BOWSER

BEDFORD, May 16 1869.
Mr W. W. Middleton:
Sir—I procured a bottle of your Liniment for Rheumatism, and it gives me great pleasure in saying that after using it for two days, my rheumatism was completely relieved My sister was suffering, at the same time, with Inflamatory Rheumatism in her right hand and wrist—after using it for several days she was relieved. I consider it the best remedy I ever heard of.
JOHN KEEFE.

BEDFORD, May 24, 1869.
This is to certify that I have used one bottle of Middleton's Liniment for Rheumatism, and think it a good cure, and would recommend it to all persons that are afflicted with the above disease.
AUGUSTUS CARVER.

BEDFORD, May 26, 1869.
Mr. Middleton:
Sir—I procured one bottle of your medicine and used one-half of it for Rheumatism, which effected a permanent cure up to this time. I cannot hesitate in saying that it is the best remedy I ever used. A. B. CARN.

This excellent PAIN CURE is prepared only by W. W. MIDDLETON, Bedford, Pa., to whom all orders for the medicine should be addressed.

CITIZENS' CO-OPERATIVE
MUTUAL
LIFE INSURANCE COMPANY
OF BEDFORD, PA.
Incorporated, March, 1869, by Special Act of Legislature of Pennsylvania.
This company is organized on the Co-operative Mutual Plan.
The membership fee is graded according to the age of the applicant, and is lower than other mutual companies.
The payment of the membership fee entitles the member to a policy.
Every member in this company has a vote in controlling the funds of the company and has an equal share in the funds.
The amount of money paid is so little that every one can insure.
This Company is purely a HOME Company.
